

Looking for Housing?

The CWS suggests students looking for summer housing use Facebook Marketplace.

How to use Facebook Marketplace

Step 1: In the left-hand side of your Facebook homepage, click on the “Marketplace” application.

Step 2: Within your networks, click on the “Housing” option. If you click on a particular network, you will search for all listings posted by someone in that specific network. If you don’t find the listings you’re searching for within your networks, you may search for housing in other networks by clicking on “Other.”

Step 3: When you select “Other,” a screen will pop up where you can type in the city, workplace, school or regional network in which you would like to search for specific listings on that network.

Step 4: You will then be able to browse through housing listings within that network.
