DESIGNING A TEAMWORK EXPERIENCE
from goals to implementation

What course?

Where in the course?

Heterogeneous Tasks

Learning Oriented — Performance Oriented

Homogeneous Tasks

Why am I doing this? What are the desired outcomes?

POW!

BAM!

What obstacles will I encounter? Student fears/objections? My own fears/objections?

Think about how you can achieve these outcomes and overcome these obstacles through your responses to the following prompts ...

How will I/we form teams?

How will I support teams before they begin? How will we set norms/expectations?

How will I support teams mid-process? Status reporting, course correction, exception handling?

How will the work/team/individuals be assessed? How will teams/individuals reflect on their work?
