Important Steps Required for On-Campus Flu Shots

Step 1: Advanced registration is required. In order to receive a flu shot, please book your appointment by Wednesday, October 5.

Please click on SIGN UP FOR YOUR FLU SHOT and you will find a button stating select service. Select Seasonal Flu Clinic, and the date of your clinic will be in white within a calendar. Click the blue arrow to go to the month of October. By clicking on the available date, the clinic will pop up with ten minute intervals available for selection.

If you complete the appointment process and include your email address, a reminder email regarding the clinic appointment will be sent. Appointments are scheduled 10 minutes apart to maintain appropriate spacing within the site of the clinic.

Step 2: Complete the attached Consent and Insurance Form and bring this form with you to your appointment.

Attached are also the Vaccination Information Statement, HIPAA Privacy Notice, MIIS immunization sheet and objection form. If applicable, you can bring the completed MIIS objection form to the clinic and provide it to the Nurse. All participants must complete, sign and bring the consent form to the clinic.
The vaccine will be Afluria manufactured by Seqirus and distributed by Seqirus USA Inc. It was approved and released by the FDA and is an inactivated vaccine indicated for active immunization for the prevention of influenza disease caused by influenza virus subtypes A and type B contained in the vaccine. Additional information can be found on the [CDC website](https://www.cdc.gov).
