Medical Claims Problems

Sara had been trying to get coverage for a recent hospital stay. Health Advocate found a coding mistake on the bill and worked with her doctor, hospital and health plan to correct it so the claim could be reprocessed, saving her \$10,000.

Complex Healthcare Issues

Jeanna's son was diagnosed with a rare cancer and needed comprehensive medical care. Health Advocate found doctors, specialists and a treatment center and helped schedule appointments.

Insurance-related Problems and Red Tape

Gina's husband needed surgery for a life-threatening condition, but the paperwork approving the procedures got "lost in the system." Health Advocate tracked down and coordinated the paperwork between the doctor, insurance plan and hospital and helped convince the insurance company to permit a prompt operation.

Eldercare Problems

Alan needed services for his mother who lived out-of-state and had a number of medical and mental health problems. Health Advocate found home healthcare and subsequently a nursing home with an Alzheimer's unit for his mother's long-term care.
