

Paula Adina Johnson, M.D., M.P.H.

Wellesley College, Wellesley, Massachusetts 2016–present
President

Professor of Women’s Health Studies

Advance women’s higher education by championing cross-campus efforts to integrate the ideals of inclusive excellence into every aspect of academic and residential life and developing new opportunities across fields by drawing on the synergies found at the intersections of science, the humanities, and social sciences. The College is dedicated to advancing the status and achievements of women globally through strategic partnerships, education, scholarship, and its powerful alumnae network.

Harvard Medical School

Brigham and Women’s Hospital, Boston, Massachusetts 1992–2016

Executive Director, Connors Center for Women’s Health and Gender Biology

Chief, Division of Women’s Health, Department of Medicine 2002–2016

Led the development of an innovative, interdisciplinary center whose mission is to improve the health of women and transform their care through discovering how disease is expressed differently in women and men. Integrated leading-edge research about women’s health into the delivery of care, developed the next generation of academic leaders in the field of women’s health through interdisciplinary education, and worked successfully across complex systems, influencing policy and improving the health of women globally.

Built novel Division of Women’s Health that trains faculty who advance women’s health research, education, and clinical care across disciplines, which included over 50 faculty members and has secured over \$50 million in funding.

Director, Center for Cardiovascular Disease in Women 2001–2010

Founder and director of one of the first centers in the country to develop nationally recognized strategies for the prevention, treatment, and rehabilitation of coronary heart disease in women. Led interdisciplinary research that advanced the understanding of the presentation and outcomes of cardiovascular disease in women.

Acting Executive Director, U.S. Department of Health and Human Services 2007–2008

Office of Women’s Health, Harvard Medical School

Center of Excellence in Women’s Health

Led Harvard Medical School-wide program to develop a research and education initiative in women’s health with a particular focus on the health of underrepresented minority and other underserved women.

Director, Department of Quality Management Services 1999–2002
Led hospital-wide, cross-disciplinary department to improve efficiency while improving quality of care and patient satisfaction; included over 25 clinical, service, and operational improvement teams (over 500 physicians and employees).
Integrated evaluation of racial, ethnic, and gender disparities into the department's programs.

Medical Director, Quality Improvement Department of Quality Management Services 1995–1999
Developed team-based strategies to provide effective and efficient care to patient populations with chronic diseases. Developed research agenda to improve quality of care.

Clinical Epidemiologist, Brigham and Women's Hospital 1992–1996
Developed expertise in studying and evaluating the quality of cardiology care for women and underrepresented minorities.
