

Transparency and Confidentiality Statement Advisory Committee on Academic Staffing

The Advisory Committee on Academic Staffing (ACAS) is committed to communicating its policies and initiatives, and the substance of its deliberations on them, to Academic Council and interested constituencies of the College community. ACAS will schedule meetings with Academic Council to report on its work. The committee also invites questions and suggestions and may initiate conversations with faculty on matters of academic staffing.

The committee can best ensure that its work is clearly, widely, and uniformly understood by speaking only as a group to the College community. Individual members of ACAS will keep its deliberations strictly confidential and refrain from discussing its work in any conversations apart from those conducted with the community by the committee.

In considering hiring requests from departments and programs, the committee will respect the sensitivity of any information shared with it in confidence. Every Spring, the committee will report to Academic Council on its recommendations, as stipulated in College legislation.
