Finding & Editing Draft Expense Reports

Once an expense report has been started in Workday, but not completed, the expense report will go into “Draft” status. It is important to note that expense reports in “Draft” status will not be reflected on a budget, until they are submitted, and reviewed/approved by the Cost Center Manager. Please follow these steps to outlined here to find and edit a draft expense report.

1. Log into Workday and Click the “Expenses” application.

2. In the View Column, click “Expense Reports”.
